

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings of claims in the application:

LISTING OF CLAIMS:

1.(original) Pharmaceutical, cosmetic, dietetic or nutraceutical compositions comprising:

- visnadin or esculoside;

- at least one compound selected from icarin or derivatives thereof or extracts containing it, *Gingko biloba* dimeric flavones either in the free form or complexed with phospholipids, amentoflavone;

- at least one compound selected from escin, escin beta-sitosterol complexed with phospholipids, sericoside, sericoside complexed with phospholipids or *Centella asiatica* extract in the free form or complexed with phospholipids.

2.(original) Compositions as claimed in claim 1, having the following concentration ranges by weight:

- Visnadin or esculoside : 0.05-2%;

- amentoflavone or *Gingko biloba* dimeric flavones in the free form or complexed with phospholipids: 0.1-1%;

- icarin or derivatives thereof or extracts containing it: 0.1-1%;

- Escin, escin beta-sitosterol complexed with phospholipids, sericoside, sericoside complexed with phospholipids or *Centella asiatica* extract in the free form or complexed with phospholipids: 0.5%-2%.

3.(currently amended) Compositions as claimed in claim 1 [[or 2]], in which icarin derivatives comprise 7-hydroxyethyl-icarin, 7-ethylamino-icarin, 7-aminoethyl-icarin, 7-hydroxyethyl-3-O-rhamnosyl-icarin, 7-aminoethyl-3-rhamnosyl-icarin, 8-dihydro-icarin and its glucosides in 7 and 3, and 7-hydroxyethyl-7-desglucoicarin.

4.(currently amended) Compositions as claimed in claim 1 ~~any one of claims 1-3~~, in the form of creams, gel, lotions, milk.

5.(original) A composition as claimed in claim 1, containing Visnadin.

6.(original) A composition as claimed in claim 1, containing Visnadin, 7-hydroxyethyl-7-desgluco-icarin, amentoflavone and escin.

7.(original) A composition as claimed in claim 1, containing esculoside, icarin, amentoflavone, escin.

8.(original) A composition as claimed in claim 1 containing Visnadin, 7-hydroxyethyl-7-desgluco-icarin, *Gingko biloba* dimers in the free form or complexed with phospholipids.

9.(original) A composition as claimed in claim 1 containing Visnadin, *Gingko biloba* dimers complexed with phospholipids, escin beta-sitosterol complexed with phospholipids.

10.(original) A composition as claimed in claim 1 containing esculoside, *Gingko biloba* dimers complexed with phospholipids, escin beta-sitosterol complexed with phospholipids.

11. (currently amended) Method for the treatment of ~~The use of a combination of:~~

panniculopathy and of the problems connected with venous insufficiency of the lower limbs, which comprises administering to a subject in need thereof, an effective amount of the composition of claim 1.

~~—visnadin or esculoside;~~

~~—at least one compound selected from icarin or derivatives thereof or extracts containing it, *Gingko biloba* dimeric flavones either in the free form or complexed with phospholipids; amentoflavone;~~

~~—at least one compound selected from escin, escin beta-sitosterol complexed with phospholipids, sericoside, sericoside complexed with phospholipids or *Centella asiatica* extract in the free form or complexed with phospholipids.~~

~~For the preparation of a composition for the treatment of panniculopathy and of the problems connected with venous insufficiency of the lower limbs.~~

12. (new) Method for the preparation of a composition for the treatment of panniculopathy and of the problems connected with venous insufficiency of the lower limbs, which comprises admixing:

- visnadin or esculoside;
- at least one compound selected from icarin or derivatives thereof or extracts containing it, *Gingko biloba* dimeric flavones either in the free form or complexed with phospholipids; amentoflavone;
- at least one compound selected from escin, escin beta-sitosterol complexed with phospholipids, sericoside, sericoside complexed with phospholipids or *Centella asiatica* extract in the free form or complexed with phospholipids.
